

Chemistry

Std IX

ASSIGNMENT: The language of Chemistry

Q1. Write the chemical formulae of the following using criss cross method .

- a. Barium sulphate b. Chromium Sulphate c. Magnesium phosphate d. Calcium chloride
e. Ferrous sulphide e. Sodium nitrate f. Zinc carbonate g. Magnesium hydroxide
h. Potassium carbonate

Q2. Write chemical formula of the sulphate of Aluminum, Ammonium and Zinc.

Q3. Write the formula of: a. aluminate b. chromate c. silicate d. Permanganate

Q4. Write chemical formula of the hydroxide of Calcium, Magnesium and Potassium.
