

ASSIGNMENT – 4 (CHEMISTRY)

CLASS – 8

CHAPTER – MATTER

1. Explain the arrangement of particles in a solid.
2. Name three factors that can help you decide whether a substance is a solid, liquid or a gas.
3. Particles of which matter move with high speed and why?
4. State one property of liquid that solid does not possess?
5. Define the following –
 - i) density of solids
 - ii) density of fluids
