

ASSIGNMENT - 4 (CHEMISTRY) CLASS-7

CHAPTER – MATTER AND ITS COMPOSITION

1. With the help of an activity, prove that:
 - a) air has mass and occupies space.
 - b) liquid has mass and occupies space.
2. Define atom? Does it exist independently?
3. Out of solids, liquids and gases, which one has:
 - a) maximum movement of particles?
 - b) maximum inter-particle attractions?
 - c) minimum spaces between particles
