XAVIER UNIVERSITY

KAVIER UNIVERSITY BHUBANESWAR

School of Government and Public Affairs

Message from the Vice-Chancellor

Here is your opportunity to lead the world of public policy in a University that has global standards of education and facilities. Since its inception in 2013, Xavier University Bhubaneswar has built a reputation as a pioneer of higher education in India. After all, it is a University that inherits nearly 33 years of the rich legacy of one of India's premier business schools, the Xavier Institute of Management Bhubaneswar (XIMB). With the School of Government and Public Affairs (SGPA), the University has ventured into building capacity for the public affairs space - in government, non-profits and corporations - that will require a vast amount of talent in the near future as India (and, the world) transform at a rapid pace. The sharply focused vision of the School is: "Creating Leaders of Tomorrow". We are leaving no stone unturned in living up to this vision. The School will draw on faculties, expertise and best practices from leading global public policy schools. It will collaborate with institutions, public and private, to secure research projects, consultancies and placements. Students here will live the leadership mindset from the moment they step in. I invite you to seek more information and to take the life changing decision to enroll here. You will walk out to change the world!

Fr. Dr. Anthony Uvari
Vice-Chancellor
Xavier University, Bhubaneswar

Our Mission

- Impart education that creates leaders equipped with the tools to transform the world
- To build a knowledge hub on governance, analysis and policy research.
- Partner with the best institutions, in India and abroad, in all sectors with the aim of being an agent of change for good.

The SGPA is XUB's 11th School and is located at the ultra-modern International Center in the Campus. Both, the SGPA and the International Center, were inaugurated on 5th February 2020 by the Chief Minister of Odisha, Shri Naveen Patnaik.

- Creating capacity-built future-ready candidates in the public policy domain.
- Several specialized centers dedicated to researching important themes relevant to the future of the planet, including gender, health and water, climate change, governance, business and leadership development.
- Short-term courses that redress capability deficit in grassroots leaders, tribal and rural leadership.
- Collaboration and exchange with globally renowned public policy schools for knowledge, faculty and students.
- Short-duration Executive Development programs for professionals in industry and NGOs, bureaucrats, academics and journalists which will deal with public policy processes, evolution of policy in certain thematic areas and governance.

Xavier University Bhubaneswar, School of Government and Public Affairs

Address : Plot No : 12 (A), Nijigada, Kurki, Harirajpur, Odisha-752050

Message from the Dean

I am delighted to welcome you to the newly-established School of Government and Public Affairs, where we are committed to providing the highest levels of training for future leaders in governance and public policy. These are particularly challenging times in our history as we grapple with a range of public issues that require immediate, and often times innovative, policy responses from leaders and thinkers who are required to review these challenges from global perspectives. In an increasingly interconnected world, policy challenges are at once particular to certain regions, yet global in their reach-climate change, political accountability, sustainable livelihoods, effective conflict management, being a few examples. It will be our endeavour to train our students in policy models that are relevant to Odisha and India as a whole, but also through a lens that connects us to the rest of the world. We will build leaders at all levels of governance, from local levels in village panchayats to the highest levels of the bureaucracy and the executive, it is our belief that a firm foundation of learning, academic and practical, is the most precious tool that we can give in the hands of our young future leaders who will shape the world they inherit with the best of their abilities, and bring change that would make it an even better place to live in. Our faculty and researchers, drawn from all the world, will not only teach in post-graduate courses, but also offer training in leadership studies, conflict management and negotiation, social and economic policy, disaster management and several other key policy areas. We will offer a full time Masters course in Public Policy with the first batch of students starting in July 2020. Our partner institutions from abroad will strengthen our ability to offer the latest and most innovative tools and technology in crafting effective and relevant public policy.

Come join us in our new Xavier University campus where, in the finest tradition of Jesuit higher learning, we offer you the best state of the art facilities and an academic environment that lends itself to the highest quality of education and preparation for your future endeavours. Together, we will find creative and lasting solutions to the world's most pressing problems.

Professor Shobhana Rana (Dean)
School of Government and Public Affairs

Master in Public Policy

- The Master in Public Policy (MPP) is the flagship offering of the School and is a two-year full-time program that commences in July 2020.
- The program has been designed with inputs from leading public policy academics and practitioners from public policy schools around the world.
- Our curriculum outline is on the website arranged by semester and terms.
- We have envisioned the program to be a student's passport to the global world of public policy.
- It is rich in theoretical constructs of public policy, but will bring the student many practical aspects of governmental working, public policy making and the relationship between power, people and institutions.
- The MPP course has a concentration in business dealing extensively with the interface between governments and businesses.
- It will examine how these two dominant forces of our times - government and business - influence each other.
- The MPP suite of courses includes 17 Core papers and about 14 Elective papers.
- Apart from these course students will learn by working on Capstone projects, policy seminars, field visits and internships.
- Case studies and project assignments ensure that students learn the granular aspects of public policy to be able to bring action and understanding in equal measure to their career and research interests.
- Some of our Core courses gravitate around Public Policy Analysis, Economics, Project Appraisal, Monitoring and Evaluation, Business and Public Policy, the Sociology of Power and Social Transformation, Public Leadership, Negotiation and Executive Leadership in the public policy space.
- Our School's motto is, 'Creating Leaders of Tomorrow', hence the emphasis on courses that draw out the leadership potential in our students and prepare them for lead.

XAVIER UNIVERSITY BHUBANESWAR

A Digital University, A Research University, An Innovative University, A University with a Vision.

Xavier University Bhubaneswar is a private unitary University located in the state of Odisha. The University has been established in accordance with The Xavier University, Odisha Act, 2013. The University is a private self-financing institution of higher learning for imparting professional and technical education.

VISION

Enabling people to live extraordinary lives, and be the light of the world.

MISSION

To transform the world through economics education & research in the spirit of "Magis".

OUR VALUES

- > Integrity and Excellence
- > Compassion and Commitment
- > Social and Ecological Sensitivity

Visit us: <https://xse.edu.in>

Dedicated to Academic Excellence

Xavier School of Economics (XSE) aims to provide students with broad-based knowledge, advanced technical, communication and adaptive skills.

Graduates here obtain skills which give them opportunity to explore and apply competency in the profession by integrating in-depth research, conceptual development, strategic thinking and problem solving abilities. Through carefully planned structure of learning, the graduates will equip themselves with multi-disciplinary skills and practices.

The program aims to ensure that our graduates will be able to inculcate positive values and attitudes, stressing on ethics and professionalism, possess leadership quality and ethical teamwork spirit in the diverse cultures of the nation and across the globe. They will be provided with an educational experience that will motivate them to pursue lifelong learning.

Programs Offered

Under Graduate Program

- B.Sc. Economics (Hons.)

Post Graduate Program

- M.Sc. Economics

B.Sc. Economics (Hons.)

B.Sc. Economics (Hons.) is a full-time, three-year graduation program. The program aims at creation, dissemination and curation of knowledge. The program offers a wide array of interdisciplinary courses. Presently it includes, apart from 15 core economics courses, Literature, Environmental Science, Political Economy of India, Sociology, Computer Application etc. It complies with the UGC Guidelines. This provides the graduates a *Diverse & Dynamic Learning & Research Environment*. This will help graduates in critical thinking, logical analysis and deep understanding of crucial economic issues. Through exhaustive learning & research we aim to prepare the students to face future challenges.

Eligibility

Programme	Duration	Intake	Eligibility
B.Sc. (Hons.) Economics	3 years Full-time	60	XII pass from any branch with minimum 55% marks.

Xavier School of Economics

"Economics is the art to meet unlimited needs with scarce resources" ~ Laurence J. Peter

We, at Xavier School of Economics aim to imbibe in our graduates the highest standards of academic excellence coupled with strong ethical values and professionalism. We provide them with an environment to develop their leadership skills and at the same time appreciate the unique diversity of culture of the nation and across the globe. They are equipped with skills and given conceptual clarity so as to develop problem solving skills and carry forward their own research. Our goal is to develop in our graduates a multi-disciplinary thought process to look at the broader picture and establish linkages

Admissions open for 2020-21

Programs offered
