## Data Handling Part - 2

Tally Marks: The bars drawn to represent numbers are called Tally marks.

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| I | II | III | IIII | HH | IIII I | IIH II | IIII | IHN <br> IIII | IHN <br> INH |

Example: Draw the tally marks for the given pictograph and answer the following questions.

| Fruits | Number of fruits |  |  |  |
| :--- | :--- | :--- | :--- | :--- |
| Apple | $\square$ | $\square$ | $\square$ | $\square$ |
| Mango | $\square$ | $\square$ | $\square$ | $\square$ |

Each $\square$ represents 2 fruits
Q1) Which fruit is liked the most? How many are there?
Q2) Which fruits are liked equally? How many are there?
Q3) How many Oranges are there?
Q4) Find the total number of fruits.

## Answer:

| Fruits | Number of fruits | Tally Marks |
| :--- | :--- | :--- |
| Apple | $4 \times 2=8$ | III III |
| Mango | $7 \times 2=14$ | III III |
| Orange | $5 \times 2=10$ | III III |
| Watermelon | $4 \times 2=8$ | IHI III |

1) Mango. $7 \times 2=14$
2) Apple and Watermelon.
$4 \times 2=8$
3) $5 \times 2=10$
4) $8+14+10+8=40$

Do exercise from the Work book.
Thank you.*****
