

**ASSIGNMENT – 22(CHEMISTRY)**

**CLASS – 7**

**CHAPTER 1 – MATTER AND ITS COMPOSITION (Revision)**

1. Differentiate solids, liquids and gases on the basis of  
(a) Shape and volume                      (b) Intermolecular space  
(c) Intermolecular force   (d) Compressibility
2. Name the factors which affect the melting and boiling points of a substance.
3. What is meant by change of state?
