

Assignment:

Class: 3 Sub: Computer Chapter: 2 (GUI Operating System)

Continue with chapter 2 in your computer copy.

Q.1) Write any two points of difference between Normal mode and Safe mode.

(Page No.29, Q. 8)

Ans:

Normal mode	Safe mode
Normal mode is the default mode of Windows.	Safe mode is the a diagnostic mode for troubleshooting issues in a computer.
In Normal mode, Windows appears in high resolution and with all colours.	In Safe mode, Windows appears with limited colours and lower resolution.

(Ref: Page No.26)
