

Ch- 6

The four Domains of the Earth

(continue the work in your notebook)

Ques 4- What is the importance of atmosphere?

Ans- The atmosphere is important to us in many ways-

.It acts like a blanket that does not allow the heat of the sun to escape into space and keeps the earth warm.

. It protects us from the harmful solar radiation.

. The water vapour and carbon dioxide present in the lower layers of the atmosphere absorb the heat radiated by the earth and keeps the atmosphere warm even during the night.
