

STD 7 BIOLOGY

HOLIDAY HOME WORK

(FROM CHAPTER—tissue, photosynthesis, respiration)

1. Define the following terms.
 - Chlorenchyma
 - Photosynthesis
 - Cellular respiration
2. Differentiate between:
 - Meristematic and permanent tissue
 - Photosynthesis and respiration
 - Aerobic and anaerobic respiration
3. State the functions of :
 - Epithelial tissue
 - Blood
 - Stomata
 - Lenticels
4. Draw the labelled diagram of :
 - Nerve cell or neuron
 - Chloroplast
5. Explain different types of muscles with diagrams.
6. Describe respiration process in roots.
