

STD 10 COMPUTER APPLICATIONS

Q1 Write a program to assign 7 integers into A[] and 5 integers into B[] respectively. Store by combining elements of both A and B into a third array called C[]. Finally print the arrays A, B and C.

Eg: A[]={4,6,2,8,6,3,9}

B[]={6,3,9,8,2}

C[]={9,3,6,8,2,6,4,2,8,9,3,6}
