

## Std-5 Social Studies Assignment

### Chapter 3 : EVOLUTION OR TRANSPORT SYSTEM

*(Continue from previous assignment. Questions 1 and 2 already done)*

3. What are ships mainly used for?

**Ans.** Transportation by ships is much cheaper than air or road transport. Ships are mainly used for transporting bulky goods and heavy cargo like foodgrains and ores. Ships called oil tankers are used for carrying oil.

4. Name three major ports of India.

**Ans.** Three major ports of India are Mumbai, Chennai and Kolkata.

5. What are the advantages of air transport over other means of transport?

**Ans.** The main advantages of air transport are:

- It is the fastest means of transport.
- All the countries and major cities are connected by air.
- It is used to carry passengers and cargo all-around the world.
