

ASSIGNMENT
Std. 5 Science.
Ch.8 (sound and noise)

Answer the following questions :-

Q7) Write few measures to minimise noise pollution.

Ans) we can minimise noise pollution by following measures :

- i) use of loudspeakers should be banned.
- ii) use of low volume automobile engines should be promoted.
- iii) lubricate the machine to reduce the sound produced.
- iv) minimise the use of horns of vehicles.
- v) plant more trees because they reduce noise.
- vi) check electrical appliances regularly to reduce their sound while working.
- vi) use of heavy carpet and curtains at home absorbs noise coming from outside.

Q 8) What is the difference between noise and music ?

Ans) noise is non periodic vibrations with an irregular wave pattern. it is irritating or unpleasing to ears and mind. it is

produced by machines used in factory or by moving vehicles bus train etc.

music is pleasant to our ears and minds. it is produced by musical instruments like sitar, guitar ,violin, drum,piano etc.
