

## 3 – Maths

# Money

Indian money is represented by **Rupees** and **Paise**.

- The symbol of Rupees is ' ₹ '.
- The short form of paise is ' p '.

$$\text{₹1} = 100\text{p}$$

Rupee and paise are separated by a ( . )

### Exercise1: Write the amount in words:

**Example :** ₹ 5.10 = 5 rupees and 10 paise

₹ 645.02 = 645 rupees and 2 paise.

- ₹ 28.75
- ₹ 456.05

### Exercise 2 : Write the amount in figures :

**Example:** 65 rupees and 4 paise = ₹ 65.04

709 rupees and 75 paise = ₹ 709.75

- 1052 rupees and 90 paise = ₹ \_\_\_\_\_
- 465 rupees and 6 paise = ₹ \_\_\_\_\_

### Exercise 3 : Converting Rupees into Paise:

**Example 1:** ₹ 65.39 = \_\_\_\_\_p

Just by removing the dot ( . )

$$6539 \text{ p}$$

**Example 2:** ₹ 74.09 = \_\_\_\_\_p

$$( 74 \times 100 ) + 09$$

$$7400 + 09 = 7409 \text{ p}$$

**( Do it by 2<sup>nd</sup> example )**

a. ₹ 102.45

b. ₹ 89.20

### Exercise 4 : Converting paise into Rupees:

**Example 1:** 7050 p = ₹ \_\_\_\_\_

Put a ( . ) by counting 2-digits from the RHS

$$= ₹ 70.50$$

**Example 2:** 6thousand 8hundred 59 paise

$$6859 \div 100$$

$$₹ 68.59$$

**( Do it by 2<sup>nd</sup> example )**

a. 8145 p

b. 5 thousand 9 hundred 10 paise
